Make Your Business a Rolling Success!

Solutions for the Corrugated & Paperboard Industry

In an industry prone to raw material and demand fluctuations, maximizing operational efficiencies is critical for success and it is also one of the few areas that are within your control. Knowing this, Intertape Polymer Group (IPG) is offering a suite of solutions designed to make your corrugated or paperboard operation a rolling success.

To prevent an interruption in production that results in costly machine downtime, excess labor expense and potentially scrapping some of those precious raw materials, you must carefully choose a splicing tape to meet your equipment and production needs.

Performance advantages:

- **Quick initial tack (perfect for flying splice)**
- **Excellent high temperature performance**
- **Hand-tearable for ease of handling**

Solutions for the Corrugated & Paperboard Industry

Intertape® brand Double-Coated Tissue Tapes offer a range of performance options to do just that! In fact, our Double-Coated Tissue Tapes are designed to work well on a wide variety of paper grades, including the increasingly popular high recycled content paper. Due to the excellent quick tack properties and high fiber tear, Intertape® brand Double-Coated Tissue Tapes virtually eliminate the risk of splice failures so your operation never stops rolling!

	Backing	Adhesive	Liner	Adhesion (oz/in.)	Thickness w/Liner & w/out Liner (mils)	Color
Heavy Duty Applications (High Recycled Content and Heavy Paper Grades)						
DCT102A	10# Tissue	Solvent Acrylic	PCK-White	69	8.3 / 3.8	White
General Duty Applications						
DCT101A	10# Tissue	Solvent Acrylic	SCK-White	53	5.5 / 2.3	White
Light Duty & Low Temperature Applications						
DCT100R	10# Tissue	Solventless Synthetic Rubber/Resin	SCK-White	21	6.6 / 3.1	White

Intertape® brand Flatback Splicing Tapes help bring profit to your bottom line. No more stopping your production line... no more splicing worries.

- Exceptional strength and high tensile resistance
- Bond quickly with high adhesion
- Suitable for moist or dusty environments... tapes remain strong and rigid

	Backing	Adhesive	Tensile	Adhesion	Thickness	Elongation	Color
539	Kraft Flatback	Natural / Syntehtic Rubber	40 lbs./in.	50 oz./in.	7.2 (0.18 mm)	7%	Brown
534	Kraft Flatback	Natural / Syntehtic Rubber	40 lbs./in.	45 oz./in.	7.2 (0.18 mm)	7%	Brown

In addition to these splicing solutions, you can trust IPG to be your single source solution for all industrial tape products from paper masking to carton sealing tapes and equipment. We also offer a comprehensive line of High Performance, Standard Duty and OXO-Biodegradable stretch films needed to safely transport materials within your facility or on to your customers.

Proudly Manufactured in the USA

Corporate Profile

Intertape Polymer Group Inc. (IPG) is an acknowledged leader in the packaging industry. Leveraging its advanced manufacturing technologies, extensive research and development capabilities and a comprehensive strategic acquisition program, the company believes it has assembled the broadest and deepest range of products in the industry.

IPG is widely recognized for its development and manufacture of specialized polyolefin, plastic and paper-based packaging products, as well as complementary packaging systems for industrial and retail use. Additionally, IPG is a woven and flexible intermediate bulk container (FIBC) manufacturer. Its performance products, including tapes and cloths, are designed for demanding aerospace, automotive and industrial applications and are sold to a broad range of industrial/specialty distributors, retail stores and large end-users in diverse industries.
