Rounding Out the Double-Coated Category

NEW! Double-Coated Tissue Tapes

Intertape Polymer Group (IPG) is rolling out a complete line of double-coated tapes with a range of performance options and adhesive technologies to satisfy even the most demanding applications.

APPLICATION AREAS

General Converting Applications

Variety of Splicing Applications:

(Including paper, plastic, metal, glass and flying splice)

Bonding & Assembling • Core / Roll Starting

Intertape[®] Double-Coated Tissue Tapes are designed to be durable yet easy to handle so it **saves valuable processing time and reduces cost** by virtually eliminating breakage. Much of this durability is due to the heavy duty release liner that contributes added strength, making it converter friendly!

Additional performance advantages:

- **Quick initial tack (perfect for flying splice and general bonding)**
- **Excellent high temperature performance**
- **Hand-tearable for ease of handling**
- **Virtually eliminates breakage**
