

IPG's UL723 classified Foil, All Service Jacket (ASJ) and Foil/Scrim/Kraft (FSK) tapes are engineered to seam / seal duct board, duct wrap and pipe insulation to enhance appearance and maintain vapor barrier integrity. The aggressive / long-lasting cold weather acrylic adhesive provides long-lasting adhesion to clean/dry surfaces with superior bonding when exposed to either sub-zero or elevated temperatures.

PRODUCTS FOR ALL INSULATION APPLICATIONS

Intertape Polymer Group® offers a complete line of products specifically engineered to meet the most stringent requirements of the insulation industry.

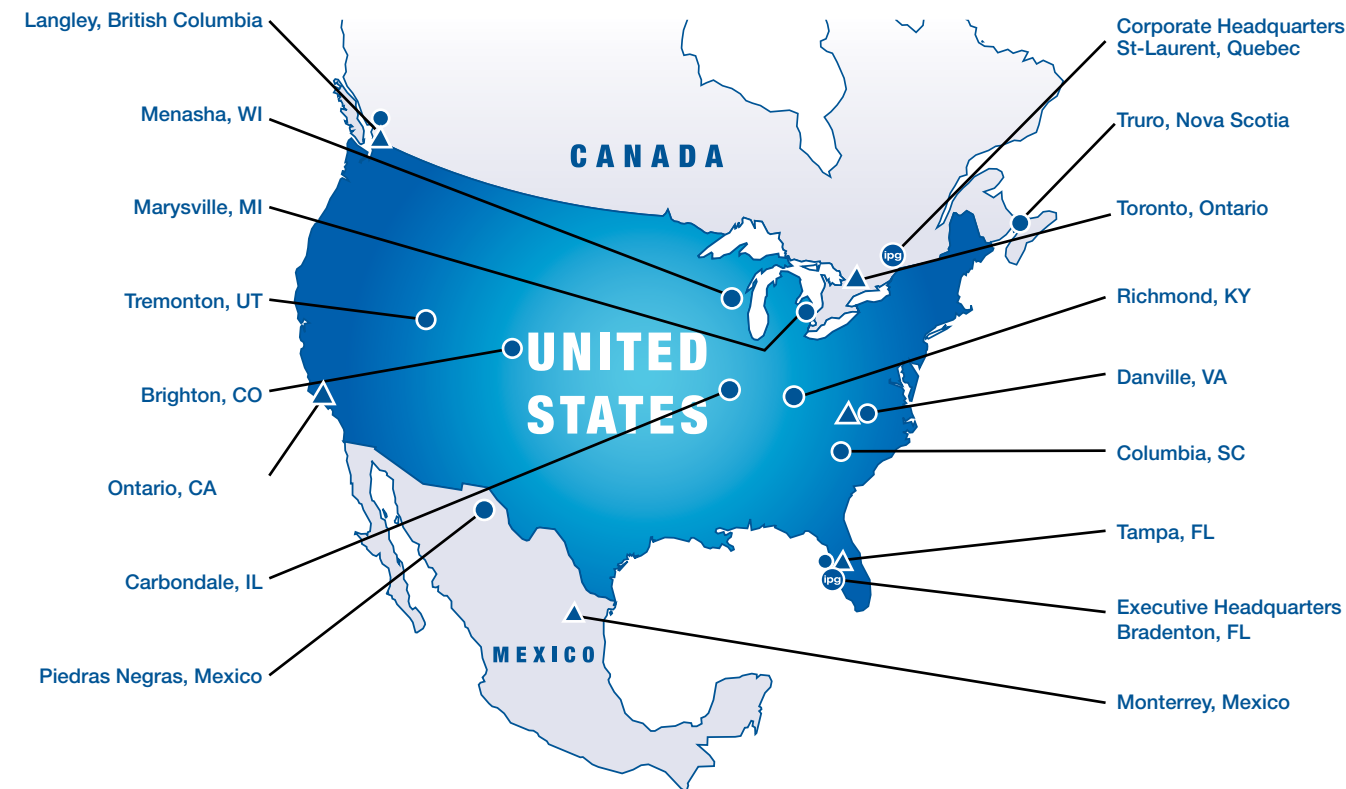

- Products engineered for a wide range of applications and environments
- UL Certified products to meet building and construction codes
- Products manufactured with specially formulated adhesives to handle harsh weather conditions
- Water, smoke, and mold-resistant products

IPG insulation products can help increase efficiency and meet sustainability goals by minimizing air distribution loss. From our mechanical insulation tapes to our extensive industrial tape and films product offering, IPG has your solution.

CORPORATE PROFILE

Intertape Polymer Group Inc. (IPG) is an acknowledged leader in the packaging industry. Leveraging its advanced manufacturing and technologies, extensive research and development capabilities and a comprehensive strategic acquisition program, the company believes it has assembled the broadest and deepest range of products in the industry. IPG is widely recognized for its development and manufacture of specialized polyolefin, plastic and paper-based packaging products, as well as complementary packaging systems for industrial and retail use. Additionally, IPG is a woven and flexible intermediate bulk container (FIBC) manufacturer. Its performance products, including tapes and cloths, are designed for demanding aerospace, automotive and industrial applications and are sold to a broad range of industry/specialty distributors, retail stores and large end-users in diverse industries.
