

GENESYS® CAST MACHINE APPLIED STRETCH FILMS

**Unbeatable Performance in
A Technologically Advanced
Downgauge Film**

Intertape Polymer Group® SuperFLEX™ high performance stretch wrap products are designed to provide the highest levels of load holding force in the industry. SuperFLEX™ films are highly resistant to being punctured or torn, even when applied to irregularly-shaped loads. In addition, they work well with high speed automated wrappers and are produced to have true one-sided cling to prevent wrapped loads from sticking together.

NEW!

Genesys Ultra
STRETCH FILM

- Ultra light gauge products (42 to 45 gauge) with up to 45% cost savings possible
- Longer footage rolls can reduce roll change frequency by 50%
- Machine stretchable up to 275%
- Crystal clear formulation applies silently
- Minimizes ecological footprint

Genesys
STRETCH FILM

- Down gauged film (50 to 95 gauge plus)
- Up to 35% cost savings possible
- Longer footage rolls can reduce roll change frequency by 50%
- Machine stretchable to 300% plus (63 gauge and above)
- Wide variety of sizes available
- Available with UVI protectant or with OXO-Biodegradable formulation

Product Information - Genesys Ultra

Resource	Thickness	Roll Width	Roll Length	Weight	Maximum Stretch	Rolls per Pallet	Replaces Conventional
H51062000-11	42 ga	20"	11000'	36.96 lbs	250%	40	Up to 70 ga
H51063000-11	42 ga	30"	11000'	55.44 lbs	250%	20	Up to 70 ga
H51142000-10	45 ga	20"	10000'	36.00 lbs	275%	40	Up to 80 ga
H51143000-V0	45 ga	30"	10000'	54.00 lbs	275%	20	Up to 80 ga

OXO-BIODEGRADABLE OPTION

Intertape Polymer Group® now offers an environmentally preferable stretch wrapping solution. IPG OXO-Biodegradable Stretch films contain an additive that initiates and accelerates the breakdown of the film if exposed to direct sunlight, ultimately reducing it to carbon dioxide, water and biomass. If the film is not exposed to direct sunlight, it will retain virtually all of its original mechanical properties. IPG has received "third party" certification that our OXO stretch films do biodegrade if exposed to sunlight for prolonged periods. Please contact your IPG sales representative for more information.

CORPORATE PROFILE

Intertape Polymer Group® Inc. (IPG) is an acknowledged leader in the packaging industry. Leveraging its advanced manufacturing technologies, extensive research and development capabilities and a comprehensive strategic acquisition program, the company believes it has assembled the broadest and deepest range of products in the industry.

IPG is widely recognized for its development and manufacture of specialized polyolefin, plastic and paper-based packaging products, as well as complementary packaging systems for industrial and retail use. Additionally, IPG is a woven and flexible intermediate bulk container (FIBC) manufacturer. Its performance products, including tapes and cloths, are designed for demanding aerospace, automotive and industrial applications and are sold to a broad range of industrial/specialty distributors, retail stores and large end-users in diverse industries.
